

FROM THE VINE TO THE GLASS

We produce, vinify, blend or source all our wines with a simple aim : introduce you into the world of grape varieties, blending but overall pleasure. Les Assembleurs is just friends gathering around the idea of refreshing the sometimes posh world of wine.

HERE, JUST WINE ON TAP

Kegs enable us to propose high-quality products while reducing our carbon footprint in addition to allowing us to offer you wines that are « brut de cuve », meaning that they taste as good as if you were tasting them directly from our cellar.

UP TO YOU TO BE THE APPRENTICE WINEMAKER

Our name means « The Blenders ». Blending is a key stage in the creation of many grands crus which consists in bringing together different vats, generally of different grape varieties, to create, like a perfumer, a unique beverage. Now it's your turn to create your blending to your liking !

A PLACE TO LIVE AND SHARE

Les Assembleurs is not only a fantastic wine bar ! Our cuisine is generous and authentic, our beers are carefully selected and we are delighted to be able to share our passion with you.

HOMEMADE BLENDS

It's up to you to be the apprentice winemaker ! Our grape varietal wines can be blended according to your wishes or on the advice of the team.
